

## **Sanswire Corp. Signs MOU With Command and Control System and Software a Division of L-3 Services, Inc.**

### ***L-3C2S2 becomes Systems Integrator Of Sanswire's STS-111 Lighter-Than-Air Unmanned Airship***

FORT LAUDERDALE, FL -- [Sanswire Corp.](http://www.sanswire.com) (www.sanswire.com), a company that develops and produces long endurance lighter-than-air Unmanned Airships designed to provide persistent surveillance for extended durations at mid and high altitudes, has entered into a Memorandum of Understanding (MOU) with Command and Control System and Software Division of L-3 Services, Inc. (C2S2).

The terms of the MOU, call for Sanswire and C2S2 to collaborate on preparing the STS-111 Unmanned Airship for jointly held demonstrations to potential customers. Initially, C2S2 will serve as the systems integrator and operator of Sanswire's STS-111 lighter-than-air Unmanned Airship. Sanswire will be responsible for building and delivering the initial operational STS-111 to U.S. based flight facilities where a Sanswire and C2S2 team of technicians and engineers will complete the system integration work on the airships' command and control suites and mission packages. In addition, C2S2 team members will be trained on operations and maintenance of the STS-111 in preparation for delivering fully operational airships for deployment and operations.

"This collaboration not only shows confidence in our technology and the capability of the STS-111, but is also evidence that unmanned airships are the future of surveillance and reconnaissance. This gives further validation that the STS-111's revolutionary design, extended duration, and unique mobility will be recognized as a valuable asset in the UAV space," said David A. Christian, Chief Executive Officer of Sanswire.

Mr. Christian continued: "This new development puts us in front of a broader audience and customer base than ever before. We consider this MOU to be a validation of our long-term business strategy and look forward to a fruitful collaboration that holds the potential to assist in our nation's intelligence, reconnaissance, and surveillance capabilities."
